General Howard, Commissioner of the Freedmen's Burean, has written a letter to Brevet Brigadier-General Brooks, Assistant Commissioner for Maryland, directing the operations of the Burean in that State, excepting the educational work and payment of bounties, as provided by law, be discontinued on and after the 10th of August.

A letter has been received from Capt. Henry A Wise, of the United States Navy, formerly Chief of the Ordnance Burean, announcing his arrival at Carlshad, Bohemia, where he has gone for the benefit of his health, which for aame time past has been very much impaired. The passage to Europe did not increase his malady, which induced him to acek relief at Linguisham watering places.

The denial of a jury mediatate linguar in the trial of the Jacmal packet prisoners was right, because the trial of such a case as that depended on internal, not international laws. The evidence obtained in the United States against these prisoners to prove that they were members of the Fenian Brotherhood was merely collateral. The real crime charged sgatist these men was committed on British territory. The Times even accepts the rule that a naturalized citizen of the United States may come to England with impunity after plotting against the Queen in America, if he comes peacewally.

The Governor's New York Speech on the 4th of July, 1863.

A Review of the New York Draft Riots.

A FARMER CANDIDATE, BAGG's HOTEL, UTICA, July 23, 1905.

D NOW OF TIME, The Governor is a hard-working man. He understands the true id-a of economy in all ils applications. His unmerous speeches during the last twenty years will furnish the material for as complete a work on political economy as was ever written. His ideas of financial economy were fully set forth in his recent able speech at the Cooper Institute, in New York. Economy of time he is illustrating daily on his farm in Deerfield, which he is personally unperintending, while also representing "ye unterrified Democracie" as their candidate for the Freeddeucy, thus causing the multiplied and multiform demands of his time so faintly depicted above. That he understands economy of time is apparent, from the fact that he answers each and every demand made upon his affection with readiness and dispatch, while at the assue time he keeps perfectly cool and tree from excitement, and meets everybody and every use activement, and meets everybody and every use activement. a work on political economy as was every written. Has ideas of financial economy were fully set forth in his recent able speech at the Cooper Institute, in New York. Economy of time he is illustrating daily on his farm in Deerfield, which he is personally superintending, while also representing "ye unterrified Democracie" as their cardidate for the Fresideucy, thus causing the multiplied and multiform demands of his time so faintly deploted above. That he understands economy of time is apparent, trom the fact that he answers each and every demand made upon his attention with readiness and dispatch, while at the same time he keeps perfectly cool and free from excitement, and meets everybody and every use circumstance and every one of the thousand petty annoyances and every one of the thousand petty annoyances and embarransments believing the governor Morgan, the State Comproduction of the thousand petty annoyances and embarransments believing the governor Morgan, the State Comproduction of the thousand petty annoyances and embarransments believing the governor Morgan, the State Comproduction of the housand petty annoyances and embarransments believing the governor Morgan to state Comproduction to the housand petty annoyances and every one of the thousand petty annoyances and embarransments believing the governor Morgan to state control the State, had been down the take like into this matter; it will soon come out right. e'ection, and the only way they could prevent it was to get martial law declared, and for that they were working. The favor in which I etood with the Administration because of the very timely and material aid rendered at the time of the Penrsylvaria invasion rendered my voice more powerful at Washington than these adroit schemers desired, and prevented their scenting the declaration they sought. Hence they attacked my apeed to break my power. The riots occurred when all the militia were la Pennsylvania by my orders. So their charges had no weight with the Administration. Then they sought to use the riots as a pietext for having martial law declared But here I beat them again by declaring the city in a state of insurrection, and taking active command as Commanderin-Chiefof the forces of the State. This made them even more angry, until, final-Montgomery Blair. An Extract from his Late Speech al Alson Springs, Va.

made them even more angry, nntil, final-y, when the summary measures put outh were so speedily anocessful, their wrath boiled over.

At a Democratic gathering, held a Alum Springs, Rockbridge county, Va., ou the 25th Instant, Montgomery Blair delivered a speech, in which he touched delivered a speech, in which he touched upon topics already familiar to the public, and made the following allusions to the Democratic nomines for the Vice-Presidency and current political topics. Reterring to the action of the Tammany Couventicu in nominating General Blair, Mr. Blair continued:

To show that their invitation to all who were true to the Constitution in this hour of its peril to unite with them as equisis was not an unmeaning phrase, they con-

For President we have nominated Horatio Seymour, an elequentorator, an able and experienced statesman, an accomplished entireman, sober and righteous in the enlarged, catholic sease of the term, a man of the strictest pecuniary integrity: the candidate of no 'ring' or facilon, and one who will neither himself steal, nor permit their in others. And this, after the laxenous experience of the past seven years, which have mocked and dwarfed the gigsatic peculiations and corruptions of even Roman or English history, and wherein, as in periods of physical epidemics, every phase and species of public crime and oftense speedily assumed the form and type of robbery or their, is high, exalted councy apponany candidate, and prompt candidate, and gives promise of a return to bonester times. Nominated, to my personal knowledge, against his will, and without a piedge or promise to any one, upon any surject, he is under no obligations of any tort, other than that which binds the parties and gentleman. And if he be "in-sene", as little creatures with false, malicuus tongues insinnale, I would that the same mechan were in the madness of all other public men.

A New Albany Rogue Attempts to Sell in Forged Order for 811? He is Overhauled and Committed to Juli,

forded somewhat of a sensation rather early yesterday morning. About nine o'cicck the whole central portion of the city labored under that peculiar excitement incident to a lively foot-race between the M. P.'s and a fugitive malefactor. When the sport terminated we found that the purenit had been after one Constant Treaner, who hails from New Athany. He had forged an order for \$117 from Michael Deltz, the Street Inspector of the Western District, and offered to sell it at three per cent. discount to Mr. James Treasy, on Market etree', between Sixth and Seventh. Mr. Treasy, who is alter, arrived in the city yesterday, and in the habit of purchasing orders from the atreet hauds, read ly detected the forgery. In order to make eure of the rascal Mr. Treasy declined to buy the sheck, telling the man that he had started toward Mr. James Osborn's, on Jefferson errest, intent upon she wing the order there. This was anticipated by Mr. Salah Reese and Fanny Mnrrsy, drunkstructed to vote for the nomination of heraw Mr. Treasy approaching, just as he Capt. Wm. So far as I am aware, the esrliest mention of Planchette is in en anonymous novel, "Who Breeks, Pays," republished among the Tauchnitz volumes in 1881 as a standard book. The description is accurate, though short. The ititle heart-shaped table, with its two pentagraph wheels and its pencil leg, is just like our own (smiller friend. It writes "now" and "Lilian," and adds a cross at the end of the usame—a thing, let me say, which shakes my faith in the author's knowledge, since I never knew Planchette to make a cross, for the simple reason that it cennot take up its pencil-point, and must always write a running hand.

The later literature of the subject consists of two articles, one entitled "Planchette," and the other "A Three-legged imposior," and both republished in Every Saturday during the past winter. The first of these two accounts piqued my curiosity, and as it contained an engraving of the proper character to work from, I very scou had possession of amplianeaus for experiment. I have been called upon to report to you to-day what has been done and what is being done to remove the obstructions to navigation in our Western rivers, and especially what has been done by the national Congress to carry on this great work. First let me say that three new sneg-boats are at work sweeping from our rivers the stumps and trees upon which initions of our property have been wricked. Two are operating between here and Memphis, and one on the Missurl river, and all who have means of knowing beartestimony to their efficiency. In the econd place, dredging has commenced, it has been a question with steambeat mean and civil englueers whether any thing could be done to remove the lais which obstruct navigation on low water. This problem has been adved, Above Rock Island Rapids a dredge-bont in being operated with the most marked success. Bais which afferded only iwenty-tive inches of water are now cut down by the government under General McAlister is also now at its post at the mouth of the Mississippi river, and you may expect to hear of plenty of water on the bar at the Pailize to float with safety the ocean cumerce to Nsw Orleans, to carry from thence the produce of this valley.

On the Des Moines and Lock Island rapide, too, the greet work is heing pushed, and the orders from Washington are to press them.

pushed, and the orders from Washington are to press them.

Congress has given us two millions to work on until December, and more is premised. Dredge boets will be ordered to cut down the bars when they shall interfere with the navigation of the rivers below us, so that we shall have unintermited navigation to New Ordena. The Chio river is riso well provided for. The Louisville cenal is to be completed and made free, and the river improved from Pittsburg to Catro. The Upper Missianippiand Ohio have stood together in this unovement, have gallantly fought and wen, and connected a triendship which we trust never will be severed.

But we have not stopped here. We have inaugurated a movement to competing perfect of the streams to build them of such a character as shell not obstruct navigation. Congress has appointed a commission of Congress has appointed a commission of competent Engineers to report the length of span necessary to accommodate the in-triests of navigation, and in addition, another commission to examine and reanother commission to examine and re-port on all bridges over navigable rivers, whether they are built in strict accord-ance with lew, and are or are uot ob-structions to ravigations.
